## A DIFFERENT ERA

In 1928, at the height of Prohibition, the 5-8 Club opened amid the high living flapper era operating as a "speakeasy" serving beer and liquor illegally to its thirsty patrons. "Speakeasies" such as the 5-8 got their name because those wishing to enter were advised to knock softly at the door and speak "easy" (quietly) to the door-keeper. By doing so, law enforcement authorities couldn't overhear the conversation.

During its days as a "speak," the 5-8 Club was an ordinary stucco house located out in the country where Cedar Avenue intersected with a then unpaved side road, later to become 58th Street, and just adjacent to the new Wold-Chamberlain Airport. Combined with its location, the fact that the club had an underground garage - whose door was discovered in the 1996 renovation - made it a particularly desirable "speak." Cars, their trunks filled with bottles of illegal hootch packed in burlap bags, could pull right into the underground garage, and the "goods" could be taken upstairs.

The U.S. remained officially "dry" until Prohibition was repealed on December 5, 1933, at which time the 5-8 club went "legit" and became widely known for its famous burgers and a wide selection of beers. Shortly before World War II, 58th Street was paved and someone "sawed the roof" off the old house creating the flattop look you see today. Much around it has changed since that time but to this day - nearly 75 years later - the 5-8 is still known for its great burgers, famous beers, generous portions and thoughtful service.

We hope you enjoy your meal and that you will return often to one of the Twin Cities' last remaining "speaks."
